## SKILLS

- Programming Languages: Java, Python, SQL
- Backend: Spring Boot, Spring Data JPA, Hibernate, Spring Security, RESTful API
- Database: MySQL
- Authentication: JWT, Role-based Authorization
- Architecture: MVC, Design Patterns
- Tools: Git, Postman, Cloudinary
- Other Skills: Problem Solving, Teamwork, AI Tools Usage

## LANGUAGES

- English Basic

## PROFILE

Software Engineering student passionate about Backend development and building web-based systems. Possess a solid foundation in Java, Spring Boot, MySQL, and RESTful API, along with a strong learning mindset and good teamwork skills.

## PROJECT

### AI Library System

05/2026-PRESENT

Role: Backend Developer

Technologies: Java, Spring Boot, MySQL, Spring Security, JWT, RESTful API, ReactJS, AI Integration

- Built RESTful APIs for authentication, document management, search, upload, view, and download features.
- Implemented JWT-based authentication, profile management, and role-based authorization.
- Integrated AI features to support smart document search and content suggestions.
- Connected backend APIs with ReactJS frontend to build a complete AI-powered library system.
